

Confidence in Your Coverage

Daimler Truck Financial (DTF) offers customers exceptional truck protection programs, in addition to convenient financing options. Customized insurance offerings provide prompt certificate issuance and quick turnaround times on claims. This, coupled with competitive pricing, makes DTF an appealing choice for your commercial vehicle insurance needs.

DTF locks in your rate and discounts for the term of your loan, meaning your cost will not change, even if there is a loss during the term of coverage.* This provides predictability and peace of mind that your insurance rates will not increase.

DTF partners with EPG Insurance, Inc (EPG), a licensed insurance agency, to provide insurance coverage options for your commercial vehicle. EPG has more than 30 years of experience in the insurance industry and offers coverage underwritten by American Bankers Insurance Company of Florida, Reliable Lloyd's Insurance Company and Voyager Indemnity Insurance, depending on the state in which your vehicle is registered. These insurance companies are all subsidiaries of Assurant, Inc.

Visit daimler-truckfinancial.com or contact your local Freightliner Trucks or Western Star Trucks dealer for details.

**Applies to insurance and non-insurance coverage bundled with vehicle finance contract installment payment.*
